Conditions Warrant Cancellation,

Whether shipments of grain should continue on contracts made before the war was the subject of a vigorous protest by the Liverpool Corn Trade association, which had received reports that further shipments on such contracts would not be made. Liverpool's representatives told the dealers that they had the assurances of bankers that exchange would be nearly normal within a week. If American dealers should refuse to ship grain, they said, they would be working against the common good. Nevertheless, many of the American dealers felt that the unforeseen conditions warranted the cancellation of their contracts made prior to the beginning of hostilities.

AMERICANS NOW WILLING TO REMAIN IN LONDON Embassy No Longer Besieged by Throngs Clamoring to Get Home.

Washington, Aug. 10 .- Americans in Washington, Aug. 10.—Americans in Europe have nearly stopped clamoring to return home, according to today's reports to the state department, from Ambassador Page at London. The ambassador cabled that although steamers salling Saturday for the since the treasure cruisers started United States carried 5,000 Americans, across the Atlantic and bankers began advancing on demand many of those who at first besieged the embassy with appeals for transportation now express willingness to remain indefinite-

that the number of Americans stranded in Europe who really desire to return home has dropped to 30,000. Mr. Garrison now doubts whether it will be great formality. Secretary McAdoo made a brief address to which Governor Hamlin replied.

"The importance of the federal reserve board is not yet fully realized." Mr. McAdoo said. "It is out duty to make it understood and to get these banks into effective operation at the earliest possible moment.

"I feel that by cooperative effort we are going to be able to make this system, in a short time, a buwark against financial disasterrs; the basis for commercial development at home and for the avenuation of the contents of the country.

Garrison now doubts whether it will be necessary to send any vessels across to bring these péople to the United States as commercial liners appear to be able to take care of them all.
